## **DETAILED ACTION**

### ***Claim Objections***

1. Claim 1 is objected to because of the following informalities: The claim must be numbered "1" and should be in one-sentence form using commas rather than periods. Appropriate correction is required.

### ***Priority***

2. Acknowledgment is made of applicant's claim for foreign priority based on an application filed in Canada on 9/22/02. It is noted, however, that applicant has not filed a certified copy of the Canadian application as required by 35 U.S.C. 119(b).

### ***Claim Rejections - 35 USC § 102***

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Han et al. (US 4,254,843 A).

Han et al. discloses a propeller system for a vehicle comprising propellers 46 for being rotated by wind and in turn driving generators 66, as shown in figures 1-3.

Art Unit: 3618
